RESPONSE TO RESTRICTION REQUIREMENT

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

In response to the Restriction Requirement mailed January 24, 2006, Applicant elects, with traverse, Group XII (claims 48-58), drawn to a method for administering a live microbial feed. Applicant's Representatives reserve the right to pursue examination of the non-elected claims in continuation or divisional applications. Applicant respectfully requests reconsideration of the restrictions in this case and submits that the inventions as claimed can be readily evaluated in one search without placing undue burden on the Examiner.

The Examiner is requested to note that claims 1-40 were canceled at the time of filing the present application. The Examiner is further requested to note that the present application was filed as a divisional application, and should now be treated as a continuation application. At the time of filing, the present application included claims 1-40, which are identical to claims 1-40 in the parent application, and claims 41-58, which were not present in the parent application. In view of the restriction of claims 41-58 into inventions that are considered distinct from the inventions of claims 1-40, the present application should be considered a continuation application.

**Response to Restriction Requirement**

Applicant(s): Daniel J. O'SULLIVAN

Serial No.: 10/822,533

Confirmation No.: 3326

Filed: April 14, 2004

For: BIFIDOBACTERIA AND SIDEROPHORES PRODUCED THEREBY AND METHODS OF USE
